MOD-IRDA

IR REMOTE CONTROL MODULE WITH UEXT CONNECTOR

This little module allows all of our development boards with a UEXT connector to communicate at a short distance with an Infra Red link. There is a sensitive IR receiver on it.

FEATURES

- IR sensitive receiver, allows communication up to 5 meter distance
- Highly efficient IR LED
- UART interface over the UEXT connector
- Open hardware
- Nominal dimensions: (29 x 18)mm ~ (1.1 x 0.7)"
